#502 - DEFENDING PEACE IS THE DUTY OF ALL: US and its Relationship with its Southern Neighbors- Cuba, Dominican Republic, Haiti and Puerto Rico

FRIDAY - MAY 9 **NEW DATE**

TUITION \$10.00

The Caribbean and its affairs have attracted the attention of the United States since its settling in the 1700s. The US has consistently maintained its right to intervene in Caribbean affairs, and it has done so numerous times in the 20th Century. The 1960s saw events occur in the region that brought the country to the brink of nuclear conflict. The events and policies of that decade have shaped the Caribbean policies and activities of presidents ever since. This talk will center on the relationship of the US toward its southern neighbors, including Cuba, the Dominican Republic, Haiti, and Puerto Rico. He will also explain the place of the Caribbean in the context of the larger Cold War then being played out between the United States and the Soviet Union.

Hamish Lutris is an Associate Professor of History, Political Science, and Geography at Capital Community College in Hartford, Connecticut.

Hugo was an activist who delivered his message through two of the most popular and longest surviving novels of all time. If you've never looked at this incredible author in this way – Fairfield Lifelong Learners instructor **Diane Stone** will introduce you to him.
